

## 2.65 Sugi Black

Today's living spaces are designed to meet users' varying needs at different points in time, just like the Emotions E2.65 Sugi Black kitchen in a Sugi Black textured laminate finish, combined with an Arabescato Orobico marble countertop. One prime feature is the kitchen island, with a cooking area and a kitchen bar that can be pulled out or concealed as required.

Its spacious storage area is also worthy of note, particularly the top units, whose glass doors can be used to display the objects inside them to decorative

effect. Another striking feature is the concealable backsplash. This can be hidden away to prevent dirt and splashes from cooking or to conceal the kitchen utensils when they are not in use, giving the kitchen a more harmonious, neater appearance.
