

E 9.30 xlight liem dark silk, E7.90 Roble Cuero

Gamadecor is synonymous with superior quality kitchens with an upmarket design, as illustrated by the Emotions E9.30 XLight Liem Dark Silk & Roble Cuero model.

It is this kitchen's materials that make it such an exclusive choice, such as the XLight Lie Dark Silk large-format porcelain tiles by Urbatek or the Roble Cuero finish of the cabinets. Another key characteristic of this kitchen is its high number of drawers and cupboards. Although they might initially go unnoticed, they are arranged in a subtle carefully organized way to ensure extra storage capacity. The backsplash is fitted with vertical backlit panels, concealing the extractor fan and various different compartments for kitchen utensils and food products,

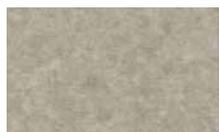

and the sink is integrated in the countertop to ensure continuity. As for the top units, they feature a flush-closing sliding door system, making them much easier to open and close. Lastly, the central island contains a storage unit, the oven and a large table.
