

## R4.70 Blanco Sal

If Gamadecor is known for one thing in particular, it is for the quality of its kitchens in addition to their design appeal, as is the case of the R4.70 Blanco Sal model. This kitchen stands out for the choice of materials that have been used, with a Mater White Polished porcelain countertop by Urbatek and kitchen furniture in a Blanco Sal finish. Another important feature is its high amount of cupboard and drawer space in its different tower units and top and bottom drawers. These combine a Blanco Sal finish with transparent glass so that their contents can be displayed to decorative effect. Mention must also be

made of the area where the backsplash is, where all the cooking utensils are easily within reach. Lastly, to round it all off, the kitchen features integrated electrical appliances and a breakfast bar.
